

## Lucile Packard Foundation for Children's Health VISION, MISSION, CORE BELIEFS

- Vision** All children in the communities we serve are able to reach their maximum health potential.
- Mission** The Foundation works to elevate the priority of children's health and increase the quality and accessibility of children's health care through leadership and direct investment.
- Core Beliefs**
- All children are society's responsibility, and their health should be a primary consideration in all economic, social, political, and personal decisions.
  - Children's health includes their physical, mental and social well being.
  - Children should have access to high-quality, culturally competent health care when and where they need it, provided through a delivery system that recognizes their unique physical and developmental needs.
  - Society should continuously invest in research and innovation to improve the health and development of children.
